EDUCATION

University of California, Berkeley

B.S. in Electrical Engineering and Computer Science, GPA: 3.94/4.00

Berkeley, CA

Class of 2023

- **Technical Coursework:**

Efficient Algorithms, Data Structures, Computer Architecture, Discrete Math and Probability Theory, Structure of Computer Programs, Designing Information Devices and Systems I/II

- **Skills:**

Java, Python, Swift, Javascript, C, R, MySQL, Vue.js, React.js, React Native, CI, Git, Terminal, Xcode (proficient)
Golang, Matlab, Lisp, Scheme, RISC-V, MongoDB, Node.js, Express.js, Selenium, Docker (familiar)

EXPERIENCE

Applied Research Laboratory

Research Intern

Austin, TX

June 2020–July 2020

- Wrote Python program for calculating sonar signal detectability under different application environments.
- Studied in seminars covering research done in altimetry, clustering algorithms, and acoustics.

Silicon Labs

Embedded Software Intern

Austin, TX

June 2019–August 2019

- Wrote Embedded C programs on Silicon Labs microcontrollers used by MCU customers as design reference.
- Wrote reference code for BGX wireless boards, one of Silicon Lab's most sold products, on 32-bit systems.
- Wrote/debugged code for low energy peripherals of 32-bit MCUs.

Mobile App Developing Experience

Native iOS Developer

Since 2017

- Created 5 apps and gained 20,000+ downloads. Utilized Swift, Xcode, and CocoaPods.
- Accumulated 9,000+ downloads on app using the iPhone camera and Vision AIs to create affordable solution for the blind to navigate their surroundings.
- Created Immolation Organization (iOS game) and ranked top 20/600 in Official GitHub hosted game-coding contest.

Silicon Labs

High School Apprentice

Austin, TX

June 2018–August 2018

- Trained to design breadboard circuits, solder, and use the oscilloscope.

PROJECTS

- **Visualize - Vision AI, iOS App**

- Created app that helps the blind “see” by having a vision AI see through their phone camera and verbalize what is in front of them.
- Configured Microsoft Computer Vision API and Apple CoreML for image recognition.
- Received feedback from local school of the visually impaired.

- **Pin It - Social Media App**

- Created social media app for school districts to pin places visited by students for contests on virtual map.
- Programmed Swift frontend, Vue.js admin panel, and backend features in Javascript for Firebase cloud functions.

- **Owner of YouTube Channel**

- Passionate animator with 7,000 subscribers and 3,000,000+ views from 30+ stop motion videos.

AWARDS

- TACC Coding Contest

Ranked 1st place team, 3rd place individual in University of Texas invitational coding contest.

2018

- USACO Gold Division
