EDUCATION

University of California, Berkeley

B.S. in Electrical Engineering and Computer Science, GPA: 3.94/4.00

Berkeley, CA

Class of 2023

• Technical Coursework:

Efficient Algorithms Data Structures Discrete Math and Probability Theory
Computer Architecture Structure of Computer Programs Designing Information Devices and Systems I/II

• Skills:

Languages - Java, Python, Swift, JavaScript, C, Embedded C, RISC-V, Golang, R, Scheme, Lisp, Matlab
Frameworks/Databases - Vue.js, MySQL, React.js, React Native, Node.js, Express.js, MongoDB, Selenium
Dev Tools - Xcode, Git, Terminal, CI

EXPERIENCE

Mobile App Developing Experience

Native iOS Developer

Since 2017-Now

- Published 5 apps to App Store and gained 20,000+ downloads, utilizing Swift, Xcode, and CocoaPods.
- Created Visualize (iOS app) using the iPhone camera in conjunction with Microsoft's Vision API and Apple's CoreML AI frameworks to create an affordable solution for the blind to navigate their surroundings. Accumulated 9,000+ downloads.
- Created Immolation Organization (iOS game) and ranked top 20/600 in Official GitHub hosted game-coding contest.

Autodesk

Software Engineer Intern

San Rafael, CA

May 2021–August 2021

- Worked on upgrading C++ licensing SDK for next global release.
- Developed and documented Javascript tool in Jenkins pipeline that checks for content error in production server.

Silicon Labs

Embedded Software Intern

Austin, TX

June 2019–August 2019

- Wrote Embedded C programs on Silicon Labs microcontrollers used by MCU customers as design reference.
- Expanded software support for BGX bluetooth boards from 8-bit systems to 32-bit systems after discovering missing compatibility for 32-bit in existing codebase.
- Wrote/debugged code for low energy peripherals of 32-bit MCUs.

Silicon Labs

High School Apprentice

Austin, TX

June 2018–August 2018

- Trained to design breadboard circuits, solder, and use the oscilloscope.

PERSONAL PROJECTS

• Pin It - Social Media App for Eanes School District

- Created social media app for school districts to pin places visited by students for contests on virtual map.
- Programmed Swift frontend, Vue.js admin dashboard, and backend features in JavaScript for Firebase cloud functions.

• Owner of YouTube Channel

- Passionate animator with 7,000 subscribers and 3,000,000+ views from 30+ stop motion videos.

AWARDS

• TACC Coding Contest

2018

Ranked 1st place team, 3rd place individual in University of Texas invitational coding contest.

• USACO Gold Division
